FEATURES & BENEFITS

YOUR BRAND, OUR LEADING TECHNOLOGY

Zenith Hub delivers a flexible, cost-effective online print and asset management solution. It adds value to your business through leading technology that you can rely on for speed, quality, accuracy and consistency.

Enjoy an online solution that showcases your brand with a wide range of business benefits.

SAVE TIME

With 24/7 access to
your online portal

SAVE TIME

24/7 access to your online portal lets you order your print and other assets at any time of the day from your mobile, tablet or computer. The automated portal reduces artwork processing times, so that you can reach your target audience faster.

REDUCE COSTS

Save money with Zenith Hub. The online portal offers an efficient workflow where your ordering, proofing, submission and delivery processes are streamlined and accelerated to reduce your production costs.

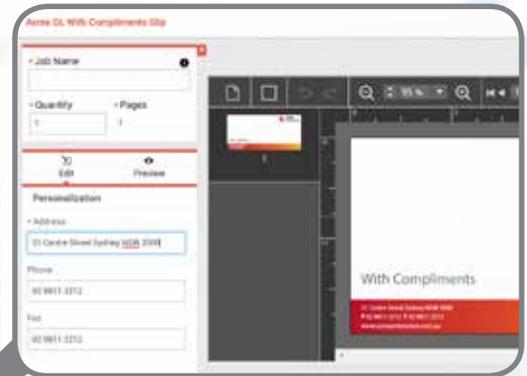

AUTOMATED APPROVALS

Approvals can be configured on a company, user and even product basis. Setting up the approval process for each job gives you full control over how the portal is utilised and orders are submitted.

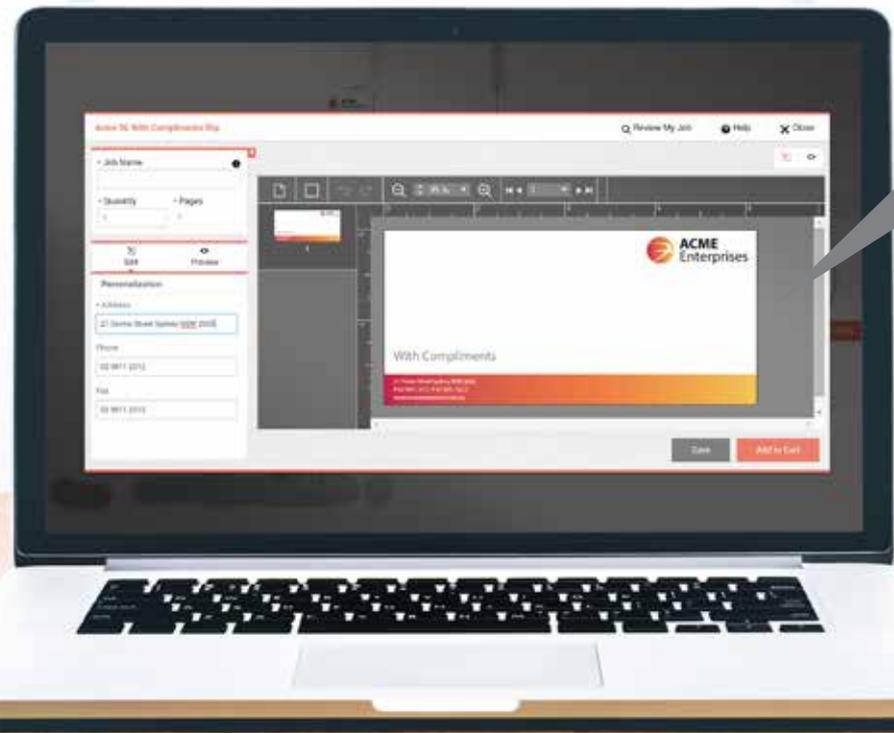

INVENTORY CONTROL

Zenith Hub provides a simple product quantity / reorder point that allows you to manage your product inventory for items such as pre-printed shells and promotional products.

VARIABLE ARTWORK

Customise your ready-made templates by inputting your own business data.

INSTANT PROOFING

Zenith Hub allows you to instantly proof your artwork and make any changes before submitting your final order. Select and edit variable artwork and proof the artwork immediately before ordering.

INSTANT QUOTES

Using the visual product builder feature you can upload files, select the print and finishing options, add, delete and rearrange pages, obtain a quote, proof your job and submit your order all in one intuitive online interface. Zenith Hub renders an image of how the finished document will appear which you can review by turning the pages, viewing thumbnails, or zooming in. This helps you to see exactly what you are ordering and proofing before buying.

VARIABLE ARTWORK

Customise your ready-made templates by inputting your own business data. Variable data ordering saves your business valuable time by allowing the user to attach a list for bulk order items, such as business cards for all employees.

**BRAND
CONSISTENCY**

Zenith Hub lets you
take control of your
brand collateral to
ensure consistency
and uniformity
throughout your
campaigns.

BRAND CONSISTENCY

Zenith Hub lets you take control of your brand collateral to ensure consistency and uniformity throughout your campaigns. All products in your catalogue are created as pre-approved templates and artwork in line with your corporate style guide.

PERSONALISED STOREFRONT

Your storefront can be customised to your exact business needs with your entire catalogue created to meet your current branding and style guide. Zenith Hub has the latest responsive technologies (html5 and css3) to allow storefronts to scale smoothly from desktop to tablet and mobile devices.

FLEXIBLE DESIGN

Edit and customise print products by adding text copy, editing titles and inserting images. Personalise your products by selecting images from galleries and adding your own text, images, QR codes and shapes, all while retaining the original branding control of the template. Customers also have the ability to manipulate images with Zenith Hub's on-the-fly design functionality.

TESTIMONIAL

"The key to the success of Zenith Hub is that it allows our organisation to enhance and innovate our existing manual processes.

Kwik Kopy is at the edge of this online print management technology and Zenith Hub really is the future for us."

Kim Kelloway, Head of Business Development, HLB Mann Judd.

HLB Mann Judd accountants and business advisers have been working with Kwik Kopy for over 15 years for all of their printing needs. Headquartered in Sydney, with multiple offices throughout Australia and New Zealand, HLB Mann Judd had their own processes for managing brand assets and printing between offices, but the situation could be improved and tightened. Kwik Kopy presented Zenith Hub, a solution that would allow HLB Mann Judd to better manage their brand assets, including all of their marketing and stationery, as well as their professional profiles, template forms and presentations.
