### Amazing service from Kwik Kopy

8/12/2016

I initially came to Kwik Kopy to have some Fact sheets printed, I found Charlotte and her team to be so attentive to all our needs, Charlotte went above and beyond to get our colours exact, this took quite a while to get right (due to our colour not being a standard one), there were many samples happily delivered to our door until we were more than happy with the final product. We ended up not only getting all of our 18 fact sheets printed but added another form for printing as we were so impressed at the high quality that was produced.

*Kwik Kopy Camberwell customer - Clinical Service Administrator*

### Went that extra mile

8/12/2016

Due to poor planning I left my printing to the last minute, which so happen to be Melbourne Cup day. Despite this, I was provided with a level of service, which like myself, was determined to provided me with the desired end product. After sorting out a number of file formatting problems, staying open while I did this, we were able to print out a fantastic end product. I was very appreciative of the level service provided in order that I was able to get my printing complete for a submission which was due the very next day. It is not very often in todays world people will go the extra mile! Something that your competitors just don't get, which I experience when looking for a printing service that day. Keep up with that point of difference and people will seek and pay for that level of service.

*Digger1970 - Design Manager*
