Simone72 - Business Development Manager

★★★★☆ **Excellent professional service** 8/12/2016

I have always been very happy with the quality of service. Some print jobs have been exceptional and extremely well priced. My own recent visit for an eight page presentation with front and back covers cost me $44.00. This was the most expensive presentation I have every had. I felt very sad actually. Unfortunately, I will not get future client presentations printed if that is the price. It usually costs me $20 for two fully bound copies. In this instance I only got one and a standard 8 page printed copy for myself. Had I known the price before I got it printed I would not have proceeded. I was basing it on the pricing structure I had always received for printing my client presentations, and I did mention over the phone an approximate price of $20.00. Therefore I was extremely surprised to be paying $44.00. At the same time I collected a job for a client - 1000 business cards. I was advised they would print off a proof first. When I went to collect my personal job they had printed and boxed all. The actual print job looked amazing. The client informed the printed cards were not centred on the inside of the business card, and the writing was almost on the bottom cut line. The client informed me that the cards in the box were inconsistent and the image had moved during print, whereby the main image bled over the fold line and onto the front cover. Kwik copy responded immediately and said they would reprint which is excellent. Unfortunately, I have not had a chance to pick up the box from the client or follow through due to Christmas rush. Prior to me collecting the images from the client, I have asked the client to report the discrepancies to me, together with numbers. He doesn't seem to worried, but I will wait to hear back from him.

★★★★★ **Above and beyond service and fantastic products** 8/11/2016

I used Kwik Kopy as a second choice, when my first choice continually returned my product for further changes. I have dealt with Kwik Kopy previously and should have gone there from the start. Kirby at the Hilton Office went above and beyond with her service, she made the changes that were required and made the product look even better than originally. I received my business cards earlier than stated which was a bonus. Because I was so impressed, I ended up having my DL flyers and my AFrame printed at the Hilton office. Highly recommend if you want your job done not only properly but accompanied with exceptional customer service.

★★★★★ **All Round Excellence** 16/08/2016

I've been dealing with Kwik Kopy Hilton ever since I opened my store 18 months ago & they have completed more than 20 different jobs, each of them different designs & different mediums. I've worked with many different printers over the years & also have a background in graphic design so I know what I want & am very particular about quality. There is not one part of the experience dealing with these guys that I can fault. This encompasses the excellent customer service I always receive, fast communication, through to the great turnaround times, lots of open communication, all the way through the process to the end product. I love that they are not afraid to offer their own ideas based on their expertise, even if they differ from my original idea. Their aim is always to give the customer the BEST result possible & I always get it. Finished products are always of excellent quality - to the point that I've never bothered to get another quote elsewhere since I started using them. The value for money is excellent & when the results are consistently of such a high standard, it now saves me so much time just to keep going back again and again for ALL kinds of different projects. Couldn't be happier.
