Service and finished copy excellent

8/10/2019

I took in an old newspaper article Which had been cut out of local newspaper. The finished product looked as though it had just been printed rather than being nearly 30 years old. You then framed it for me – a very professional result, thank you.

WillR - Project Manager

Excellent help and patience with a first-timer!

17/08/2019

Everything was done by email and communication was so efficient and clear and easy throughout. I can't often answer my phone through the daytime but have access to email, so this was fantastic. As my first time doing any corporate printing, I was really appreciative of the help and patience of the staff in not only meeting my needs, but giving me clear quotes and a variety of options as well as briefing me on my files and even checking them carefully for me! Even after I replied saying 'yes, good to go' they still double checked and were correct to as I'd messed up the page structure of my file (despite their clear instructions! Doh!). There was a small issue with the print of one of my files (not my fault this time!) but they reprinted it immediately and very graciously so it wasn't an issue and showed their excellent customer service and willingness to serve at the highest level. Very happy customer and made the whole process a lot easier than it would've been without their friendly and personal service.

Amazing! Thanks so much for being able to fit us into your print schedule. The end product was cut to size, quality was flawless and also shrink-wrapped for protection and presentation. That is a nice professional touch.

I had Chloe organise a logo for my personal cards. I needed them done ASAP and she delivered, they were so good I asked her to then do my business cards and they turned out just as professional as the first. Definitely recommend this store and Chloe.

Great Service and Turnaround time

23/09/2016

I had broken every printer in the office trying to produce labels with a high quality finish. The Kwik Kopy team were able to print to an exceptional standard for us and included ideas and label types that made it easier and faster for us to use. They easily scaled up for us as well as our printing needs changed from a few pages at a time to thousands. I consider the team there to be solutions people and not just printers. Tell them what the outcome is that you need and they can certainly deliver.

Excellent service and turnaround time

22/09/2016

Within the past few months, I required 2 urgent print jobs... called Kwik Kopy Kawana with requests - they advised several options for best quality and value, and to email files straight through. Received quote within the hour and print jobs were ready before my required time! Also, I wanted to have some urgent passport photos printed recently and although they could have printed for me and 'just taken the money', Kwik Kopy Kawana advised the best option was to go to local Post Office due to their specific passport photo requirements.
