**helpful and enjoyable experience every time**

”

I've visited Kwik Kopy Norwood multiple times now, and spoken to multiple different employees, all of whom have been incredibly helpful and friendly. As a design student, when I began printing with them I hadn't had a huge amount of experience with printers, and the guys here were all very patient. Their products are of a very high standard and the prices are more than reasonable. I will always recommend these guys and will continue to use them in my professional career.

**Darling Harbour (NSW) & Norwood (SA)**

30/10/2017

Being an SA based business we often use Norwood Kwik Kopy. Each time the prints have been of amazing quality and have a quick turnaround. Both Phil and Barry are easy to deal with, they're friendly and there isn't any pushback. They make it simple and are happy to answer any questions. Recently we were in urgent need of printing in Sydney. Victor from Kwik Kopy in Darling Harbour had a turn around time of less than three hours, this included the prints being delivered to the hotel where our staff were staying. It was overly efficient and he was very accommodating despite being in different states! Very happy with both Norwood and Darling Harbour!

*Madi*

### **Customer service & communication needs improvement**

24/10/2017

The actual print work was great, however customer service and communication could be improved. Having submitted a request for a quote on several jobs and not hearing back, had to contact the business several times to find out if they will be sending through a quote. On agreeing on the print job and being quoted a time line of work and collection date, 2 separate jobs were not ready on date stated and no communication to update on the status and when to collect. Only found out when going to the business to collect the job to be told it wasn't ready.

*Sroma - Marketing*

**Good work**

23/10/2017

Hi, I submitted work for a proof, which we were happy with the quality etc. However, I decided to go with another printer because they offer a more professional service. The other printer is professionally customer centric which means we can sit back knowing we can trust them and rely on delivery times etc. I have found at Norwood, you offer a more relaxed style which makes me feel uncomfortable (a little too much is unknown, in the air and guess work).

*PrintGuru*
